# Cold Storage - Reminder

October 27, 2016

We would like to remind you to continue entering in up to date temperature in cold storage and up to date times.

For example, if your office opens at 8AM but you do not check temperatures until 805AM or 815AM please enter that exact time in Cold storage.

This allows for more accurate readings and provides better customer service if we are investigating a temperature excursion on your behalf.

# Cold Storage - Reminder

October 27, 2016

If you notice an entry which is shaded in yellow, this may be an indication that your temperatures are out of range or close to being out of range. Please contact the VFC program at 602.364.3642 immediately if this occurs.

If you have any questions or need assistance, contact ASIIS help desk at 602.364.3899 or email [ASIISHelpDesk@azdhs.gov](mailto:ASIISHelpDesk@azdhs.gov)

# Vaccine Ordering 1

October 27, 2016

Please be patient when submitting your vaccine orders in ASIIS.

Due to massive quantity of orders in the system the server and ASIIS are having difficulties processing the information.

[Back to First Page](#)

# Vaccine Ordering 2

October 27, 2016

When submitting vaccine order, if the page times out or shows an error after some time, your order will still be submitted.

Contact the ASIIS HelpDesk for additional assistance

(602) 364-3899

# Adjustments in CDC's Temperature Guidance 1

August 8, 2016

CDC's release of the June  
2016 Storage and Handling  
Toolkit

New recommended  
Fahrenheit temperature  
range is 36° F - 46° F  
(previously 35° F - 46° F)

[Back to First Page](#)

# Adjustments in CDC's Temperature Guidance 2

August 8, 2016

Beginning in January 2017, all VFC program providers must comply with the adjusted Fahrenheit temperature for storing refrigerated vaccines.
