2021-2022 MCKESSON'S HOLIDAY VACCINE SHIPPING SCHEDULE

VFC/VFA & FLU VACCINES ONLY

DOES NOT APPLY TO COVID-19 VACCINES

In preparation for this year's holiday season, please note the following dates that McKesson will **not be** shipping vaccine to providers:

Tuesday, November 23th, 2021 through Friday, November 26th, 2021

Friday, December 17th, 2021 through Friday, December 31st, 2021

Normal shipping will resume on Monday, January 3rd, 2022

Place your vaccine orders in ASIIS by the end of the day Tuesday, **November 16th** in order to receive your vaccines before the no shipping period.

Place your vaccine orders in ASIIS by the end of the day Friday, **December 10th** in order to receive your vaccines before the no shipping period.

If your order is submitted in ASIIS on or after Friday, December 10th, 2021, you may not receive your order before the no shipping period starting on Friday, December 17th, 2021.

Order enough vaccine to maintain an adequate inventory between December 17th, 2021 and January 3rd, 2022.

Every time an order is placed, providers must email data logger reports from the last recorded date and time of the previously emailed data logger reports up until the date and time the order is submitted. The reports must be sent directly from the data logger application or in data format (.xls, .txt, or .csv) to arizonavfc@azdhs.gov.

If we do not receive the data logger reports with your order, the order may be denied and a new order will need to be placed, which can delay receiving your vaccines until January 2022.

If you have any questions, please do not hesitate to contact our office at 602-364-3630.
