ADDING NEW PATIENTS

To add a patient record, begin by searching for the patient. The most efficient search method is to use the initial of the patient's first name and the patient's date of birth.

By utilizing this method you will help to identify and prevent any duplications or inaccuracies in the patient's record.

Arizona Department of Health Services

Health and Wellness for all Arizonans

Reporting Administered Immunizations in ASIIS

REPORTING ADMINISTERED IMMUNIZATIONS IN ASIIS

Administered vaccinations are vaccinations that were administered by your practice. Vaccinations administered by your practice **must** be entered into ASIIS as an administered dose.

This process will ensure that lot numbers are decremented from your inventory in ASIIS.

Health and Wellness for all Arizonans

azdhs.gov

To add an administered vaccination select “View/Add” from the **Vaccinations** tab located in the navigation bar.

Add Historicals

- 'X' indicates a vaccination outside the ACIP schedule where revaccination is required.
- '*' indicates a historical vaccination.
- '#' indicates a reaction to the vaccination given.
- '+' indicates that a vaccination is unverified (in other words, information about the vaccination was provided but not checked into).
- If a combination vaccine is marked with a 'X', please verify which components of the vaccine are outside the ACIP schedule by viewing the Vaccination Summary.
- blue: indicates a vaccination administered or recorded in your facility.
- '!' indicates an inappropriately administered vaccination where revaccination is not required; however, additional doses may still be required in the series.
- 'A', yellow highlight: indicates a compromised vaccinations.
- 'C' indicates that this vaccine was given as part of confidential services for a teen patient and should not be disclosed to parent without patient consent.

The 'Select Lot Number' box will appear upon clicking on the manufacturer text box or on the 'click to select' link. The box will display all of the lot numbers that are listed in your ASIIS inventory for that particular vaccine. To attach the lot number to the patient, click the arrow next to the vaccine that was administered.

VFC providers are required to attach the administered lot number information to the patient record.

Note: The lot number must be in your ASIIS inventory to be selected.

Before the administered dose was added to ASIIS, the quantity on hand for SAMPLELOT DTaP was 10. Because all of the vaccine information was attached the administered dose, it was decremented (subtracted) from the ASIIS inventory. The quantity on hand for SAMPLELOT DTaP is now 9, as shown below. Click on 'Reconciliation' under Lot Numbers in the Navigation Bar to access this screen.

RECORDING HISTORICAL VACCINATION RECORDS IN ASIIS

Historical vaccinations are vaccinations that were **NOT** administered by your practice

Use “ ” if your practice DID NOT administer the vaccine to the patient.

To enter a vaccination **that was not** administered by your practice, enter the date in an empty box next to the appropriate vaccine and click “ ”. (You must first select a patient to access this screen.)

Version: 5.12.11.4

Logged in: KELSEY PISTOTNIK VFC Date: April 12, 2013

IRMS: TEST SITE 1 (91116)

Patient

Name:	MINNIE MOUSE	SIIS Patient ID:	6238383
Date of Birth:	01/16/2011	Age:	116 weeks, 26 months, 2 yrs
Guardian:	MARY MOUSE	Status:	Active

Vaccination Forecast

The forecast automatically switches to the accelerated schedule when a patient is behind schedule.

Vaccine Family	Dose	Recommended Date	Minimum Valid Date	Overdue Date	Status
DTaP/DT/Td	4	01/19/2012	01/19/2012	08/16/2012	Past Due
FLU	4	10/01/2013	10/01/2013	10/31/2013	Up to Date
MMR	2	01/16/2015	02/14/2012	01/16/2018	Up to Date
POLIO	4	01/16/2015	01/16/2015	01/16/2018	Up to Date
VARICELLA	2	01/16/2015	04/17/2012	01/16/2018	Up to Date
HPV	1	01/16/2022	01/16/2020	01/16/2024	Up to Date
MENINGOCOCCAL	1	01/16/2022	01/16/2022	01/16/2024	Up to Date

* DTaP or DT should be given to patients under 7 years of age. One dose of Tdap should be administered to underimmunized children 7 years of age and older or as a booster dose. Td should be administered when appropriate.

** If an adolescent has already begun the routine 3 dose Hep-B schedule, they should not be changed to the 2 dose schedule.

Due Now -- As of today's date, the patient's age falls between the recommended minimum age and the recommended maximum age for this dose and the absolute minimum interval has been met since the last dose.

Past Due -- As of today's date, the recommended maximum age or the recommended maximum date for this dose has passed.

Up to Date -- As of today's date, the patient is not due or past due.

Optional -- This vaccine may be administered today. Although the usual "recommended" date has not been met, the minimum valid date for this dose has been met.

Health and Wellness for all Arizonans

To view the vaccination summary for the selected patient simply select 'Summary' from the **Vaccinations** tab in the navigation bar.
